nal von minden

New solutions for your success!

High-quality *in-vitro* diagnostic products

nal von minden

Your partner for *in-vitro* diagnostics – worldwide

nal von minden specialises in the development, production and professional sales of *in-vitro* diagnostics. We supply our global customers with innovative and high-quality products, focusing on the areas of drug analysis and clinical diagnostics.

Our portfolio includes rapid tests and laboratory tests for reliable diagnosis across the areas of bacteriology, cardiology, gynaecology, infectious diseases, urology and toxicology. Furthermore, we are at the forefront in the fields of innovative POCT devices and reader systems and are thus in the position to provide total solutions for our customers. We also offer our customers laboratory diagnostic services through our partner laboratories.

Our experienced specialists always ensure a smooth process, whether in product development, selection of products, production, sales, key-accounting, preparation of applications, quality assurance, technical support or logistics – our customers deserve only the best.

Our native speakers communicate in 13 languages with you. Local sales forces are at your disposal in Germany, the Netherlands, Belgium, Italy, France and the UK. We have been working with our partners, doctors, laboratories, government agencies and industrial companies for over 35 years.

nal von minden Drug-Screen® Drug Rapid Tests

nal von minden

Your partner for drug analytics

nal von minden offers a wide range of tests for the detection of drugs or their consumption in urine, saliva, blood or – in the case of alcohol – in breath. For the detection and identification of unknown powders, tablets and fluids, we also offer substance tests – either based on chemical detection methods or immunological mechanisms. These enable targeted detection with particularly high sensitivity. We

consistently use our capabilities, our knowledge and our experience to widen and refine our portfolio. Excellent customer service and engagement are the cornerstones of our company philosophy. As your long-term partner, we offer a comprehensive service from the first consultation through to product delivery and beyond. We will work together with you to find individual solutions that work for you.

Your benefits with nal von minden:

- ✓ Competent and subject-specific consultation as a cornerstone of our services
- ✓ Detailed information material available for each product
- ✓ Flexible multi-test combinations for the detection of multiple parameters using just one test
- ✓ Customisable cut-off levels for your varying needs

We don't just want to satisfy your needs, we want to inspire you!

Point of care tests for every requirement

Mix and match

Choose from more than 35 parameters, as well as 7 different adulteration parameters. All products can be bought in dip, cassette and cup format – whichever suits your needs.

To save time on your procedures, our drug rapid tests are also available as multi-tests, allowing for the detection of multiple drugs and adulteration parameters simultaneously.

Drug-Screen parameters at a glance:

7-Aminoclonazepam Coming Soon!	ACL	Methamphetamine	MET
Alcohol	ALC	Morphine / Opiates	MOR/OPI
Amphetamine	AMP	Methylphenidate	MPD
Barbiturates	BAR	Methaqualone	MQL

γ-Hydroxybutyric acid	GHB	Tricyclic antidepressants	TCA
6-Monoacetylmorphine NEW!	HRN/6-MAM	Cannabinoids	THC
Ketamine NEW!	KET	Tilidine	TIL
Lysergic acid diethylamide	LSD	Tramadol	TML
Methylenedioxyamphetamine	MDA	Trazodone	TZD
Ecstasy	MDMA	Zaleplon	ZAL
Methylenedioxypyrovalerone	MDPV	Zolpidem	ZOL
Mescaline	MES	Zopiclone	ZOP

Saliva Cup Test

The new kind of drug-screening cup

Proven test principle, new matrix: Hygienic, minimally invasive and tamper-proof - testing for alcohol and drug abuse has never been easier. Until now, however, this test method was only available for urine samples. nal von minden now also offers cup tests for saliva samples. These can be taken simply with the help of a sponge and securely sealed in a cup that automatically carries out the testing. 18 different parameters can be reliably interpreted this way.

Your benefits at a glance:

- ✓ Integrated volume indicator – to indicate when sufficient saliva (1 mL) has been collected
- ✓ Optimised test procedure requiring just 2 steps
- ✓ Flat results field for fast and simple documentation
- ✓ Customisation possible
- ✓ Tamper-proof – cup can no longer be opened after sample elution

nal von minden Substance Tests

nal von minden

On the drug trail

Officials often encounter suspicious substances, the composition of which is unknown. For this reason we offer the ESA substance tests, and more recently the Tracedetect® range for the highly specific and sensitive detection of substances. Both test methods are safe, easy to use and offer fast and reliable results: The ESA substance tests are handy one-step tests based on chemical detection methods and are able to pick up a very broad range of intoxicants in unknown substances, such as powder, tablets and fluid, in just

a few seconds. For many years, ESA Test GmbH has been known for its high-quality, German-produced ampoule tests for the detection and identification of drugs. The nal von minden Tracedetect range represents a well-designed test system in compact, pocket-sized format. It is based on an immunological testing method known for its highly sensitive and targeted detection of near-invisible drug traces on numerous surfaces.

**Substance testing with nal von minden
...you can count on us!**

ESA Substance Test

Show your colours

Complacency is not in our vocabulary, and so we are in constant contact with you, our customers, to ensure that you receive the best possible training in how to use our products. We look to share our knowledge, as well as to listen to you when looking to the future. The best of the best are among our cooperation partners. Innovative products ensuring security and reliability are what you can expect from us now and in the future – only excellence suffices!

Your benefits at a glance:

- ✓ Practical single-step tests
- ✓ Fast and reliable results within seconds
- ✓ Easy test interpretation:
- ✓ Substance identification indicated by colour change
- ✓ Broad range of substances detectable

NADAL®
... always the right test!

nal von minden

Medical Rapid Tests ...for just about every field of indication

Our medical diagnostics portfolio encompasses numerous sectors and diagnostic fields. From cardiology and oncology to paediatrics and gynaecology, we offer both a substantial variety of rapid tests as well as devices and readers to facilitate and streamline work. Whether in a GP practice or research laboratory, our NADAL® ranges stand

for high-quality – whatever the field of indication. Our growing range of readers and analysers are designed with ease of use in mind – as with rapid tests, we have used our knowledge of the market and workplace to ensure our devices are practical, reliable and fast. Read on to find out more.

Your benefits at a glance:

- ✓ Rapid tests for a range of parameters in every field
- ✓ Guaranteed rapid test shelf life of 11 months
- ✓ Qualitative, high-quality products, complete with visual instructions for a seamless test procedure
- ✓ Supporting patient care through fast test results, as well as diagnosis directly in the practice
- ✓ Comprehensive and personal consultation

NADAL[®] Hb/Hct plus Analyser

Easy determination of Hb-levels in your practice

Your benefits at a glance:

- ✓ Clear operating instructions provided on colour display screen
- ✓ Pipetting into cuvettes possible
- ✓ Requires only small sample quantity (15 µl blood)
- ✓ Blood collection through fingertip possible
- ✓ Data can be exported via USB
- ✓ Test results in just 4 steps
- ✓ Test duration only 3 seconds
- ✓ Battery operated for flexible use
- ✓ Small & practical
- ✓ Weighs only 215 g
- ✓ Cuvette shelf life of up to 24 months
- ✓ No more costly laboratory blood tests
- ✓ Lab quality, but without the waiting time: $R^2 = 0.9875$
- ✓ CE certified

Molecular diagnostics

nal von minden

LUCIO® qPCR

The LUCIO® qPCR system unlocks all the possibilities molecular diagnostics has to offer with easy-to-handle components – let's get started!

Molecular diagnostics – with LUCIO® qPCR. Real time PCR (qPCR) marks a revolution in the clinical diagnosis of numerous diseases. The qualitative and quantitative detection of nucleic acids (DNA and RNA) from pathogens enables physicians to establish a fast, highly-specific and extremely sensitive diagnosis. This is especially useful given that genetic examination is becoming more and more prominent, particularly in fields such as oncology, blood coagulation-related diseases or personalised medicine.

This revolutionary method of qPCR diagnostics can now be used by labs across the globe, thanks to the experience and customer-orientated support of the nal von minden team. The system requires minimal maintenance, and all you need is a little training to get qPCR running in your lab. Our team is trained in not only technical, but also scientific and clinical support. Should you have any questions regarding LUCIO® qPCR, we can guarantee that we will get back to you within 24 hours.

For the quick and sensitive detection of pathogens

Your advantages with LUCIO® qPCR

Our service is as fast and reliable as molecular diagnostics itself – try us!

Your benefits at a glance:

- ✓ Easy and customer-orientated workflow
- ✓ Cost-efficient and high-quality product portfolios
- ✓ Strong technical and scientific support
- ✓ qPCR solutions for small and medium-sized laboratories
- ✓ Robust qPCR with high performance and sensitivity
- ✓ Extensive support for our qPCR customers

LUCIO® qPCR reagents

LUCIO® qPCRready reagents have been selected for their exclusively high quality. The kit is designed to reduce hands-on time, thanks to ready-to-use master mixes and lyophilised reagents. Buffer, nucleotides and enzymes are combined to achieve a high performance qPCR assay adapted for a wide range of qPCR thermocyclers. The use of UDG and Hot-Start polymerases ensures extremely high levels of specificity and sensitivity that you can rely on. Sophisticated controls and workflows provide you with the assurance you need to achieve precise diagnostic results.

Our introductory LUCIO® qPCR portfolio begins with a focus on the major parameters in modern molecular diagnostics. Our qPCR reagents are routinely tested against WHO and EQA standards to ensure the highest possible quality.

Your advantages with the LUCIO® qPCRready reagents:

- ✓ Ready-to-use master mix
- ✓ Prevention of contamination (UDG) and incorrect handling
- ✓ Highly sensitive (Hot Start)
- ✓ Fast & easy workflow
- ✓ Large & small kit sizes

tamaVet® Veterinary Rapid Tests

Our tamaVet® portfolio offers a wide range of parameters for testing dogs, cats, cattle, horses and pigs. The majority of our tamaVet® rapid tests are sandwich immunoassays in the form of test cassettes.

We offer tests for bacterial infections (e.g. *Ehrlichia canis* or *Escherichia coli*), parasitic infections (e.g. *Leishmania infantum* or heartworm), and viral pathogens (e.g. parvovirus or coronavirus). Several combinations are also available as multi-tests.

Laboratory Diagnostics

- ✓ Device
- ✓ Manual
- ✓ Battery
- ✓ 3 mouthpieces
- ✓ Protective case

Product	Product Code
SD-TE 220	360100-01

Blood Lactate Analyser · SD THE EDGE™

Test the advantages:

- ✓ Low blood volume required
- ✓ Fast result
- ✓ Small & practical
- ✓ Simple handling
- ✓ 5 year guarantee
- ✓ Large LCD display
- ✓ Saves 300 results with time and date

Product	Product Code
SD THE EDGE™	2590100

Upper arm blood pressure monitor · SD-BP 120

Test the advantages:

- ✓ Precise measurement on the upper arm
- ✓ Big & easy-to-read LCD display
- ✓ Easiest type of service and precise results
- ✓ Saves up to 120 results
- ✓ Arrhythmia detection warns of an irregular heart rate
- ✓ Results classified in line with World Health Organisation (WHO) guidelines

Product	Product Code
SD-BP 120	2520101

Test the advantages:

- ✓ Fast & reliable test results in just 1 minute
- ✓ Easy interpretation of results
- ✓ Huge variety of tests available
- ✓ Detailed product description
- ✓ Distinct colour changes in test region
- ✓ Vitamin C protected
- ✓ Cost-efficient diagnosis
- ✓ Long shelf life: 12 months, 3 months once opened

Product	Pack Size	Product Code
Reactif G urine analysis test strips	100 tests	41010-L
Reactif GP urine analysis test strips	100 tests	41020-L
Reactif 3 urine analysis test strips	100 tests	41030-L
Reactif 4 urine analysis test strips	100 tests	41040-L
Reactif 5B urine analysis test strips	100 tests	41050-L
Reactif 8SG urine analysis test strips	100 tests	41080-L
Reactif 10SL urine analysis test strips	100 tests	41101-L
Reactif 11M urine analysis test strips	100 tests	41110-L
Reactif 11M urine analysis test strips	6 tests (separately packed)	41003

Digital Thermometer · SD-T 80

Test the advantages:

- ✓ Big LCD display
- ✓ Test time of 30 seconds
- ✓ Waterproof
- ✓ Precise results: ± 0.1 °C
- ✓ Fever alarm
- ✓ Previous measurement storage

Product	Product Code
SD-T 80	2530101

Digital Thermometer with flexible tip · SD-T Flex 120

Test the advantages:

- ✓ Non-invasive measurement with flexible tip
- ✓ BPA free
- ✓ Test time of only 10 seconds
- ✓ Waterproof
- ✓ Big & easy-to-read LCD display
- ✓ Precise results: ± 0.1 °C
- ✓ Fever alarm
- ✓ Replaceable probe covers included

Product	Product Code
SD-T Flex 120	2530102

Digital Thermometer · SD-TE 220

Test the advantages:

- ✓ Fever alarm
- ✓ Big & easy-to-read LCD display
- ✓ Test time of only 2 seconds
- ✓ Precise results: ± 0.1 °C
- ✓ The last 10 results can be saved
- ✓ Replaceable probe covers included

Product	Product Code
SD-TE 220	2530103

Launch

The time has come.

Our brand new website for molecular diagnostics is ready for launch. It gives you the opportunity to familiarise yourself with our product range in this revolutionary field of diagnostics. From our autoextractors and thermocyclers to all possible reagent kits for your diagnostic field and an online shop – a visit to our qPCR-website will be worth your while.

The following QR code will take you directly to our website. You can also type in the short URL <http://bit.ly/mol-dx>. Either way is the road to experiencing molecular diagnostics online.

Welcome to our website

New categories: medical tests can now be sorted according to markers, as well as subject area.

Improved, more intuitive drug test searches – find your preferred combination of parameters quickly and easily

Loads of information about nal von minden and our products

✓ Easy navigation via the menu bar

✓ For registered customers: price display, price quotes, and much more

✓ Brand new, responsive design for easy surfing via smartphone and tablet
