

Now available:

- ✓ First and only mobile cup test reader
- ✓ Versatile: For use with Drug-Screen and medical tests in dip, cup and cassette format
- ✓ Premium high-tech smart device with long battery life
- ✓ Data capture using innovative and intuitive software
- ✓ Highly accurate evaluation in just a few seconds

**NEW!
2018!**

RSS flash mobile reader

Test, interpret, document
The complete system for rapid tests

RSS flash

Whatever your field of operation, the new RSS flash enables the evaluation of all your rapid tests in the blink of an eye.

This compact device combines with easy-to-use software to make for the ultimate user-friendly experience. Thanks to our magnet adapter system, the device can evaluate single tests, multi-cassette tests and even cup tests. Whether you are look-

ing to detect drugs in urine or a medical parameter in blood or serum - the RSS flash provides you with a precise and objective interpretation in no time at all!

- ✓ Easy to use
- ✓ Made from **robust materials**
- ✓ **Simple** and **objective** evaluations in seconds
- ✓ Automatic barcode recognition
- ✓ Software in **multiple languages**
- ✓ Portable for flexible implementation
- ✓ Performance not adversely affected by poor lighting conditions
- ✓ Evaluation of up to **12 parameters** simultaneously
- ✓ **Complete documentation** of results
- ✓ Individual customer support
- ✓ Data export via CSV

Multi-talented – Objective and precise results in seconds.

A portable diagnostic device that delivers objective and precise results in a flash! Robust and lightweight, it can be used anywhere. It delivers clear and simple results in just 10 seconds, regardless of external conditions. A reliable interpretation of cassette- and cup tests results is guaranteed. The visualisation

and documentation of results has reached a new level, thanks to instant data capture using our innovative and intuitive software.

Your options

- ✓ Drug-Screen® Single cassette tests
- ✓ Drug-Screen® Multi-dip- / Multi-cassette tests
- ✓ Drug-Screen® Cup II
- ✓ Drug-Screen® Saliva Cup
- ✓ Tracedetect tests
- ✓ NADAL® Medical rapid tests

Various sample materials:

- ✓ Urine, saliva, whole blood / serum / plasma, solids

Barcoded tests
for fully automated
test recognition and
accurate analysis

Test & interpret - Reliable results in just 3 steps

Procedure

Result

The results are clearly displayed and can be saved or printed out easily. Furthermore, all results and images can be transferred to a PC once the device is connected. With ongoing updates, your device can always be state of the art!

Print results

Using the optional cable-free bluetooth printer (available with a paper width of 5.6 cm or 8 cm), you can print results on the spot.

Technical data

Features	
Number of tests per analysis	1 cassette test or 1 cup test
Device dimensions (770070)	850 x 145 x 550 mm
Weight	315 g
Display	4.6" (11.7 cm)
Battery life	8-10 hours
Power source	1x external power cable, CE-certified
Input	100V - 240V, 50 - 60 Hz, 0.6 A
Output	5V, 1500mA
USB cable length	1 m
Humidity	20% - 80%, non-condensing
Operating temperature	-10 – +45 °C
Operating altitude	0 - 2000 m above sea level

Order information
